16th International Symposium on Geo-disaster Reduction

Strasbourg, France - August 27-31, 2018

Université

de Strasbourg

The 16th ICGdR Symposium is an international platform for scholars, researchers and practitioners to discuss interdisciplinary research and practices in the fields of the reduction of the disasters triggered by geological and geophysical phenomena on the earth and beyond.

Le 16^{ème} Symposium de l'ICGdR est une plateforme internationale ouverte aux étudiants, aux chercheurs et aux professionnels pour débattre de recherches et de pratiques interdisciplinaires dans le domaine de la réduction des risques relatifs aux phénomènes géologiques et géophysiques sur terre et au delà.

Authors are invited to submit original research abstracts on the following topics:

Les auteurs sont invités à soumettre des résumés de recherches originales sur les thématiques suivantes :

- Disasters caused by earthquake
- Disasters and climate change
- Disasters related to volcanism
- Disasters caused by human activities
- Landslides, Debris-flows, Rock avalanches
- Tsunamis and Storms
- Social resilience to disasters
- New technologies for disasters reduction
- And other related topics
